

SATYAM SINGH BHADORIYA

DEVOPS ENGINEER

8962373424 | Satyam.bhadoriya6932@gmail.com | Indore, Madhya Pradesh

SUMMARY

DevOps Engineer with 7+ months of professional experience plus prior internship experience, skilled in designing, automating, and optimizing CI/CD pipelines and cloud infrastructure using AWS, Linux, Git, Docker, Kubernetes, Terraform, and Jenkins. Strong background in Java-based technologies (Spring, Hibernate) and object-oriented programming. Adept at improving system reliability through Infrastructure as Code (IaC) and CI/CD best practices.

SKILLS

- Cloud Platforms: AWS, Azure | CI/CD: Jenkins, GitHub Actions | IaC: Terraform, Ansible
- Containers & Orchestration: Docker, Kubernetes, Helm | Version Control: Git, GitHub
- Web Servers: Nginx, Apache, Tomcat, Hostinger | Databases: MySQL, MariaDB, AWS DynamoDB
- OS: Linux (Ubuntu, CentOS), Windows | Networking & Security: VPC, IAM, Security Groups, VPN, Cloudflare CDN
- Monitoring: Datadog, Grafana, Prometheus, Tempo, Alloy, CloudWatch | Languages: Python, Java, OOP

PROFESSIONAL EXPERIENCE

Nenosystems Consultancy Services — DevOps Engineer

January 28, 2026 – Present

- Building, maintaining, and optimizing CI/CD pipelines using Jenkins and GitHub Actions for automated build, test, and deployment workflows.
- Designing and managing AWS cloud infrastructure using Terraform (IaC) for scalable, repeatable deployments.
- Containerizing applications with Docker and orchestrating deployments using Kubernetes, managing storage, networking, and security.
- Managing AWS services (EC2, IAM, S3, RDS, Lambda, CloudWatch, Route53, SQS, SNS) and monitoring systems with Datadog, Grafana, and Prometheus.
- Automating operational tasks with Shell scripting and Python to improve deployment efficiency and reduce manual effort.

HisanLabs, Pune — DevOps Intern Trainee

July 2024 – March 2025

- Built and managed CI/CD pipelines using Jenkins for automated build, test, and deployment processes.
- Designed and deployed AWS infrastructure using Terraform with reusable modules; containerized applications with Docker and Kubernetes.
- Created and maintained Kubernetes manifests and Helm charts; managed version control with Git/GitHub (branching, PRs, conflict resolution).
- Worked with AWS services (EC2, IAM, S3, RDS, Lambda, CloudWatch, Route53, SQS, SNS, KMS); automated tasks via Shell scripting and monitored systems with Datadog/CloudWatch, supporting disaster recovery.

Inventurs Cube LLB, Indore — DevOps Engineer

April 2025 – June 2025

- Assisted in setting up CI/CD pipelines (Jenkins, GitHub Actions) and infrastructure automation using Bash/Python, Terraform, and Ansible.
- Worked with Git for version control; gained hands-on AWS experience (EC2, S3, IAM) and monitored performance using Prometheus, Grafana, and CloudWatch Logs.
- Assisted in configuring Docker containers and Kubernetes fundamentals; helped manage access control via IAM policies and security groups.
- Configured subdomains/DNS via Cloudflare, hosted websites on Hostinger, and deployed applications on AWS EC2 integrating GitHub repositories for version-controlled deployment.

EDUCATION

Master of Computer Application — RGPV Bhopal, Madhya Pradesh (2023 – 2025)

Bachelor of Computer Application — Barkatullah University Bhopal, Madhya Pradesh (2016 – 2019)

CERTIFICATIONS

DevOps Engineer Foundation Course — Skilling Academy (January 2025)
